PLEASE NOTE THE FOLLOWING:

All packages sent to Fuel Moto must be properly packaged. Customers are responsible for return shipping and shipping insurance. If Fuel Moto receives a product that is damaged as a direct result of poor packaging, the customer will be contacted for payment information for return shipping or disposal information. Please take special care when sending your parts in, especially taking into consideration heavy items such as engine components. Do not package engine parts with bubble wrap, and do not package loosely. Please take extra time to package securely to ensure they arrive with no damage, and double box parts to prevent damage.
